Re: QUARTERLY REPORT – 1st Quarter 2009
DTV Consumer Education Initiative – MB Docket No. 07-148

Dear Ms. Dortch:

KTC AWS Limited Partnership (“KTC”) holds numerous FCC licenses in the 698-806 MHz Band (“700 MHz Band”). Our Auction 73 long-form application was only recently granted by the Commission. See *Public Notice*, entitled “Wireless Telecommunications Bureau Grants 700 MHz Band Licenses,” DA 09-420, Report No. AUC-73 (Auction No. 73), dated February 20, 2009.

Pursuant to Section 27.20 of the Commission’s Rules, we hereby report that for the quarter ended March 31, 2009, KTC has not undertaken any outreach efforts to educate consumers about the transition from analog broadcast television service to digital broadcast television service (DTV). As noted above, the FCC only recently granted KTC’s 700 MHz Band licenses, and it currently has no commercial operations or customers.

KTC notes that its general partner, Kennebec Telephone Company (“Kennebec”), is a provider of wireline telephone services and it is an Eligible Telecommunications Carrier (“ETC”) in the State of South Dakota. Kennebec also provides services as a Multichannel Video Programming Distributor (“MVPD”). Accordingly, Kennebec has included the required DTV transition notice information in the monthly bills for all of its customers since May of 2008. In addition, Kennebec has published information about the DTV transition in the company newsletter and informational handouts are available upon request at the telco headquarters.

In accordance with Rule Section 1.12, please refer any inquiries or correspondence pertaining to this matter to Cary Mitchell of the law firm of Blooston, Mordkofsky, Dickens, Duffy & Prendergast, LLP. He may be reached by telephone at (202) 828-5538 or by email at cary@bloostonlaw.com.

Respectfully submitted,
KTC AWS Limited Partnership

Dated: April 1, 2009

Rod Bowar
President of General Partner
